

Leonardo da Vinci Project:

**“New Forms of Learning & Basic Skills for Advanced,
inclusive Lifelong eVET in Internet Generated Occupations”
Project RO/03/B/P/PP175006;
Acronym: eEmployment**

***eEMPLOYMENT* OFFERS PRODUCTS FOR TRAINING IN INTERNET-GENERATED OCCUPATIONS. THE PRODUCTS ARE OFFERED BY MEANS OF:**

Handbooks, Incubators,
eIncubator, and other

eEmployment represents a group of correlated and convergent products focused on the training:

- of disabled people with mobility impairments,
 - of unemployed people, also including young people who left school before time,
- in the Internet-generated professions.

The Internet has become a wide field of labour and of profitable activities.

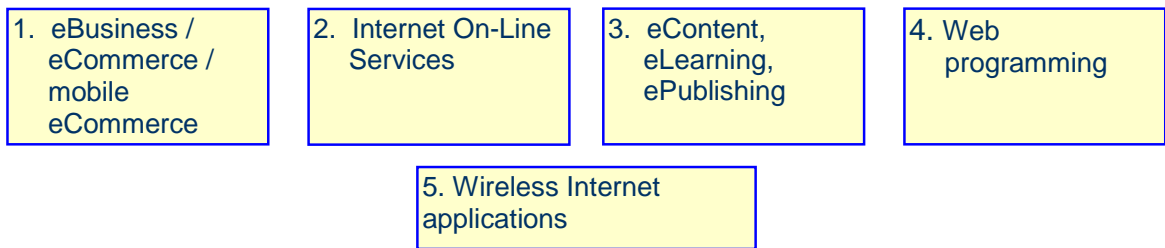

The Internet-generated professions exceptionally comply with:

the desires,
the interests,
the actual needs.

of

people with the mobility
impairments disabilities,
unemployed young people who
left school before ending,
other unemployed or employed
people.

eEmployment contributes to diminishing the “Digital Divide” action and effects by offering products for the following principal occupations generated by Internet, belonging to the eWork or teleworking activities:

All above occupations belong of the eWork / Telework occupations, professions and profitable activities.
